Proven search capabilities

Our core algorithms along with the Solr search server power applications the world over, ranging from mobile devices to sites like Twitter, Apple and Wikipedia.

Welcome to Apache Lucene

The Apache Lucene™ project develops open-source search software. The project releases a core search library, named Lucene™ core, as well as the Solr™ search server.

[Lucene Core](#) is a Java library providing powerful indexing and search features, as well as spellchecking, hit highlighting and advanced analysis/tokenization capabilities. The [PyLucene](#) sub project provides Python bindings for Lucene Core.
